SCOPE OF WORK

Multi-Vendor B2B + B2C Marketplace Platform (Dropshipping + Own Stock Ready)

1. Project Overview

The objective of this project is to develop a Simple, Secure, Scalable, High-Performance, and Future-Ready Multi-Vendor Marketplace Platform supporting both B2B and B2C business models.

The platform will initially operate on a No Stock (Direct Dropshipping) model while also being designed to support Own Warehouse Inventory in the future without requiring redevelopment.

The system shall provide Android Apps, iOS Apps, Responsive Websites, Seller Portal, Super Admin Panel, ERP-ready architecture, automation, and third-party integrations for seamless business operations.

2. Business Scope

The platform shall support:

- Multi-Vendor Marketplace
- B2B & B2C Commerce
- Direct Dropshipping Integration
- Own Stock Selling
- Marketplace Commission Model
- Manufacturer Selling
- Company Selling
- Dealer Network
- Distributor Network
- Wholesaler Selling
- Trader Selling
- Importer & Exporter Selling
- Modular & Expandable Architecture

SCOPE OF WORK

Multi-Vendor B2B + B2C Marketplace Platform (Dropshipping + Own Stock Ready)

3. User Roles

The system shall provide separate access and permissions for:

- Super Admin
- Admin
- Staff
- Company
- Manufacturer
- Vendor/Seller
- Dropshipping Partner
- Trader
- Dealer
- Distributor
- Wholesaler
- Retail Customer
- B2B Buyer

Each role shall have configurable permissions using Role-Based Access Control (RBAC).

4. Buyer Applications

Development includes:

- Android Buyer App
- iOS Buyer App
- Mobile Responsive Website

Buyer features include secure registration, product search, cart, wishlist, order placement, online payment, order tracking, invoices, reviews, ratings, coupons, offers, multiple addresses, and reorder functionality.

SCOPE OF WORK

Multi-Vendor B2B + B2C Marketplace Platform (Dropshipping + Own Stock Ready)

5. Seller Applications

Separate applications shall be provided for sellers including:

- Android Seller App
- iOS Seller App
- Responsive Seller Dashboard
- Web Seller Panel

Sellers can manage products, inventory, pricing, orders, settlements, shipping, reports, and business documents.

6. Seller & Company Registration

The platform shall provide a complete KYC and onboarding workflow.

Mandatory verification includes:

- Mobile OTP
- Email Verification
- PAN
- Aadhaar
- GST (where applicable)
- FSSAI (Food Category)
- Bank Verification
- Cancelled Cheque
- Address Proof
- Business Documents
- Company Documents
- Digital Agreement Acceptance
- Government Rules Acceptance
- Privacy Policy
- Terms & Conditions
- Shipping Policy

SCOPE OF WORK

Multi-Vendor B2B + B2C Marketplace Platform (Dropshipping + Own Stock Ready)

- Return Policy

All registrations shall require Admin approval before activation.

7. Direct Dropshipping Integration (Platform + External Suppliers)

The platform shall support a complete Direct Dropshipping ecosystem.

The Admin shall be able to onboard Companies, Manufacturers, Wholesalers, Traders, Dealers, Retail Shops, and other Suppliers as Direct Dropshipping Partners.

The system shall support:

- Platform-owned Dropshipping Suppliers
- External Supplier Registration
- Future Supplier Self Registration
- Website Integration
- API Integration
- CSV Product Import
- Excel Product Import
- Manual Product Upload

Customer payments shall always be collected in the Platform account.

After successful payment:

- Order shall automatically be forwarded to the respective Supplier.
- Supplier shall pack and dispatch products from their own warehouse.

SCOPE OF WORK

Multi-Vendor B2B + B2C Marketplace Platform (Dropshipping + Own Stock Ready)

- Supplier shall upload shipping details and tracking information.
- Delivery updates shall automatically synchronize with the platform.
- Admin shall monitor all orders, shipments, settlements, and supplier performance from a centralized dashboard.

The platform shall also support:

- Selling products from external suppliers.
- Selling platform-owned products.
- Future support where external Dropshipping Partners can sell platform products through API integration.

8. Product Management

Product management shall support:

- Manual Product Creation
- CSV Import
- Excel Import
- API Product Import
- Automatic Stock Synchronization
- Automatic Price Synchronization
- Automatic Image Synchronization
- Automatic Description Synchronization
- Category Approval
- Brand Approval
- Product Approval
- SKU
- Barcode

SCOPE OF WORK

Multi-Vendor B2B + B2C Marketplace Platform (Dropshipping + Own Stock Ready)

- MOQ
- GST
- HSN

Supported product types include:

- Simple Products
- Variable Products
- Bulk Products
- Wholesale Products
- Pack Size Products

9. Pricing & Commission Engine

A centralized pricing engine shall support:

- Minimum Default Commission
- Category-wise Commission
- Product-wise Commission
- Vendor-wise Commission
- Company-wise Commission
- Fixed Commission
- Percentage Commission
- Automatic Margin Calculation
- Manual Override
- Discount Rules
- Pricing Rules

Commission rates shall remain fully configurable by the Admin.

SCOPE OF WORK

Multi-Vendor B2B + B2C Marketplace Platform (Dropshipping + Own Stock Ready)

10. Order Management

The platform shall automate the complete order lifecycle including:

- Order Placement
- Payment Verification
- Automatic Supplier Assignment
- Automatic Order Forwarding
- Order Acceptance
- Packing Slip
- GST Invoice
- Invoice Download
- Shipping Label
- Tracking Updates
- Delivery Confirmation
- Cancellation Rules
- Order History

11. Payment & Settlement

The platform shall support online payments only.

Supported payment methods include:

- UPI
- Credit Card
- Debit Card
- Net Banking
- Wallet

Primary payment gateway:

- Razorpay

SCOPE OF WORK

Multi-Vendor B2B + B2C Marketplace Platform (Dropshipping + Own Stock Ready)

Settlement workflow:

Customer → Platform Account → Commission Deduction → Supplier/Vendor Settlement

Settlement options:

- Automatic
- Manual
- Weekly
- Monthly

12. Shipping Integration

Integration with Shiprocket shall support:

- Vendor Pickup
- Warehouse Pickup
- AWB Generation
- Shipping Label
- Courier Allocation
- Real-time Tracking
- Delivery Status
- SMS
- Email Notifications

13. Returns & Replacement

Default return policy:

No Return

Allowed cases:

- Damaged Product
- Wrong Product

SCOPE OF WORK

Multi-Vendor B2B + B2C Marketplace Platform (Dropshipping + Own Stock Ready)

- Missing Product

Admin-controlled workflows shall include return approval, replacement processing, and configurable return shipping policies.

14. Notifications & Automation

The platform shall automate:

- Product Sync
- Price Sync
- Stock Sync
- Image Sync
- API Sync
- Order Forwarding
- Tracking Updates
- Invoice Generation
- Settlement Processing
- Reports
- Razorpay Integration
- Shiprocket Integration
- WhatsApp Notifications
- Email Notifications
- SMS Notifications
- AI Chatbot

The objective is maximum automation with minimal manual intervention.

SCOPE OF WORK

Multi-Vendor B2B + B2C Marketplace Platform (Dropshipping + Own Stock Ready)

15. Accounting & Tally Module

The platform shall include a dedicated accounting integration layer supporting:

- Tally Integration
- Zoho Books Integration

Automation includes:

- GST Entries
- Sales Entries
- Purchase Entries
- Vendor Settlement Entries
- Ledger Posting
- Credit/Debit Notes
- TDS
- TCS

Tally Module

The platform shall support:

- Customer Ledger Creation
- Supplier Ledger Creation
- Vendor Ledger Creation
- Product Ledger Mapping
- GST Ledger Mapping
- Sales Voucher Export
- Purchase Voucher Export
- Payment Voucher Export
- Receipt Voucher Export
- Journal Voucher Export
- Inventory Synchronization

SCOPE OF WORK

Multi-Vendor B2B + B2C Marketplace Platform (Dropshipping + Own Stock Ready)

- Stock Synchronization
- Outstanding Reports
- GST Reports
- Financial Reports

The integration shall be designed to synchronize accounting data while minimizing manual data entry.

16. B2B Features

The platform shall provide:

- Dealer Registration
- Distributor Registration
- Trader Registration
- Company Registration
- MOQ
- Bulk Quantity
- Wholesale Pricing
- Dealer Pricing
- RFQ
- Purchase Orders
- Tax Invoice
- Multiple Price Levels
- Optional Credit Limit

SCOPE OF WORK

Multi-Vendor B2B + B2C Marketplace Platform (Dropshipping + Own Stock Ready)

17. Admin Panel

A centralized Admin Panel shall provide complete control over:

- Users
- Sellers
- Companies
- Dropshipping Partners
- Dealers
- Traders
- Distributors
- Products
- Orders
- Payments
- Settlements
- Commission
- Categories
- Brands
- Coupons
- Offers
- Banners
- CMS
- Reports
- Analytics
- Audit Logs
- Backup
- Notifications

SCOPE OF WORK

Multi-Vendor B2B + B2C Marketplace Platform (Dropshipping + Own Stock Ready)

18. API & Future Expansion

The platform shall provide Open APIs for:

- Product API
- Company API
- Inventory API
- ERP API
- Shipping API
- Accounting API
- Order API

The modular architecture shall support future integration with ERP, CRM, POS, Franchise Management, Membership, Subscription, Multi-Language, Multi-Currency, AI Modules, and International Commerce without redevelopment.

19. Security & Compliance

The platform shall implement:

- SSL Encryption
- OTP Authentication
- Email Verification
- Two-Factor Authentication
- Role-Based Permissions
- Secure APIs
- Data Encryption
- Firewall Protection
- Anti-Spam
- Anti-Fraud
- Daily Backup
- Cloud Backup
- Login Alerts

SCOPE OF WORK

Multi-Vendor B2B + B2C Marketplace Platform (Dropshipping + Own Stock Ready)

The solution shall comply with applicable Indian laws including GST, FSSAI, Consumer Protection, IT Act, Privacy Policy, Vendor Agreements, Buyer Agreements, Shipping, Cancellation, Return & Refund, and Cookie Policy requirements.

20. Deployment, Training & Ownership

The developer shall be responsible for:

- Complete Platform Development
- Production Deployment
- Domain & Hosting Configuration
- Performance Optimization
- Security Hardening
- Payment Gateway Configuration
- Shipping Integration
- Email, SMS & WhatsApp Setup
- API Configuration
- Testing & Bug Fixing
- Administrator Training
- Technical Documentation
- Deployment Guide

Upon project completion, 100% ownership shall be transferred to the Client, including:

- Full Source Code
- Android & iOS Applications
- Website & Admin Panel
- Super Admin Access
- Database
- APIs
- Git Repository

SCOPE OF WORK

Multi-Vendor B2B + B2C Marketplace Platform (Dropshipping + Own Stock Ready)

- Server Credentials
- Documentation
- Deployment Files
- Database Backup
- API Documentation
- Razorpay Configuration
- Shiprocket Configuration
- Tally Integration Assets
- Zoho Books Integration
- Firebase Configuration
- SMS & WhatsApp Configuration

SCOPE OF WORK

Multi-Vendor B2B + B2C Marketplace Platform (Dropshipping + Own Stock Ready)

1. Direct Dropshipping Integration (Platform + External Suppliers)

The platform shall support direct dropshipping integration with any Company, Manufacturer, Wholesaler, Distributor, Trader, Dealer, or Retail Shop as a Dropshipping Partner.

Initially, the Platform Owner/Admin shall be able to manually add and manage Dropshipping Suppliers. In the future, any eligible Company, Seller, or Business should be able to register and join the platform as a Dropshipping Partner through the registration process.

When a customer places an order, the payment shall first be received by the platform. The system shall then automatically forward the order to the respective Dropshipping Supplier/Vendor for fulfillment. The supplier shall pack and ship the product directly from their own registered address to the customer.

The Admin Panel shall provide complete visibility of all orders, shipments, tracking details, delivery status, supplier information, and payment records.

Additionally, the platform shall support both business models:

- Selling products sourced from third-party Dropshipping Suppliers through the platform.
- Allowing the platform's own products to be sold by other Dropshipping Partners in the future through integration with external platforms or partner networks.

SCOPE OF WORK

Multi-Vendor B2B + B2C Marketplace Platform (Dropshipping + Own Stock Ready)

2. Amazon-Style Multi-Vendor Marketplace Seller Store

The platform shall support an Amazon-style Multi-Vendor Marketplace where any Seller, Shop, Wholesaler, Trader, Manufacturer, Distributor, or Company can register as a marketplace seller.

During registration, sellers shall be able to upload all required business documents, including KYC, GST Registration, PAN Card, and any additional documents required by the platform.

After successful verification and Admin approval, the seller's dedicated online store shall become active on the platform.

Each approved seller shall receive a dedicated Seller Panel (Web and Mobile, if applicable) from which they can:

- Add, edit, and manage products
- Upload product images and descriptions
- Update pricing and inventory
- Manage stock availability
- Process incoming orders
- View shipment status
- Track earnings and settlements
- Access sales reports and business analytics

Orders placed for seller products shall be fulfilled from the seller's registered warehouse or business address, and shipping pickups shall be arranged accordingly.

3. Own Stock Selling

The platform shall also support direct selling of products owned by the Platform Owner/Admin.

SCOPE OF WORK

Multi-Vendor B2B + B2C Marketplace Platform (Dropshipping + Own Stock Ready)

The Admin shall be able to add, manage, and sell products from the platform's own inventory through the Admin Panel.

All orders for Admin-owned products shall be fulfilled and shipped directly from the platform's own warehouse, office, or fulfillment center. The system shall maintain inventory, order processing, shipping, and sales reports separately for Admin-owned products.

Supported Business Models

The platform shall simultaneously support the following three business models within a single integrated system:

1. Direct Dropshipping

- Customer orders are automatically forwarded to Dropshipping Suppliers for fulfillment after payment is received by the platform.

2. Amazon-Style Multi-Vendor Marketplace

- Independent sellers manage their own stores, inventory, orders, and business operations after Admin approval.

3. Own Stock Selling

- The Platform Owner/Admin sells products from its own inventory with fulfillment from its own warehouse or office.

This integrated architecture ensures that all three business models can operate independently or simultaneously on the same platform, providing maximum scalability and business flexibility.

APPLICATION TIMELINE: A PLAN FOR SUCCESS

01

Project Inception :

- Define project goals, features, and scope.
- Conduct market research and competitor analysis.
- Assemble a cross-functional project team.

02

Design Phase :

- Create wireframes and design prototypes.
- Collaborate with UI/UX designers for a visually appealing interface.
- Finalize design mockups and seek approvals.

03

Development Sprint :

- Implement core functionalities with a modular architecture.
- Integrate secure payment gateways.
- Conduct regular code reviews and testing.

04

Testing and QA :

- Perform functional, performance, and security testing.
- Gather user feedback through beta testing. Optimize
- based on testing results and user input.

05

Deployment :

- Ensure infrastructure readiness for smooth deployment.
- Roll out the application in stages or to a limited audience.
- Monitor server performance and address issues.

06

Ongoing Support :

- Establish user support systems.
- Plan and implement regular updates.
- Monitor analytics for optimization and upgrades.
